Message from the Vice Chancellor

It gives me immense pleasure to be part of Lumbini Buddhist University (LBU). On this very occasion, I would like to extend my gratitude and express warm greetings to all the concerned on the 11th Anniversary of Lumbini Buddhist University. Being the only Buddhist University of the country, located in the birth place of Sakyamuni Buddha, it envisages being an international centre of excellence in Buddhist Studies and research. It has been a year since I have had an opportunity to lead this esteemed academic institution with zeal. As soon as I embarked on the University with a new role I realized the need for a Master Plan to materialize the vision and mission of LBU. Eventually we had been able to formulate Academic Master Plan that was approved by LBU Senate Meeting held on 27th Jetha 2072. We at LBU believe that the Master Plan will assist us in achieving the set goals and objectives of LBU and in imparting the teachings of the Buddha across the globe for promotion of the World Peace. At this juncture I would like to extend my sincere thanks to all those who extended their support and cooperation to bring the University at this stage and look forward to further support and cooperation from all concerned in the days to come.
